Dear Gary,

This is to tell you that a copy of COUP is on the way. If this time "Special Handling" is what is paid for rather than the special kind of service I usually get, it may have reached you before you get this.

The enclosed letter to Paul may not mean anything to you in some places, but some of it may make sense.

Looking forward to getting back onto the writing of the Epilogue to COUP. That's going to be a very thick book, with that and the appendix. I think I'll make that part 2, or break the book down into more parts.

Nothing new. Have a good (and successful!) time.

Sincerely,
